

Smart Notebook Software in the Instrumental Music Classroom

If we can do it so can you

(but it's really nice to have someone around to tell you they have made the same stupid mistakes)

don't forget:

Smart Notebook Software can be used without a Smartboard

Notebook Games; good for terms, rhythms, history/culture, symbols

Smart Notebook Directions to make games

1. Open Notebook
2. On Right side open the Gallery (looks like Picture Frame)
3. Click on Lesson Activity Tool Kit
4. Open Activities
5. Pick an activity (category sort, multiple choice, word biz, vortex, etc.)
6. Open Interactive Multimedia (found underneath the activity folders)
7. There is a list of various activities to make games from
8. Open Game- There will be an edit button in the game. Click on it. It will give you guidance to create your activity. There is also a question mark in upper left corner. If you have problems open it for more directions. When finished hit save all and then title it.
